## **The Vision Council Foundation Partners with 20/20 Onsite to Provide Vision Screenings at Boston Public Library**

*Free vision screenings will be available at the Boston Public Library, Grove Hall in Dorchester on March 29 from 10 am – 3 pm*

**Alexandria, VA – March 19, 2025** – [The Vision Council Foundation](#) and [20/20 Onsite](#) will partner to bring free vision screenings to a Boston Public Library later this month. Taking place on Saturday, March 29, members of the community are welcome to visit the Grove Hall branch in Dorchester, Mass. to have their eyes checked for distance, reading and color. The vision screenings, offered through 20/20 Onsite’s mobile clinics, evaluate visual acuity and ocular health, and can determine one’s need for glasses or another type of vision correction.

“We’re proud to join forces with 20/20 Onsite to bring free vision screenings to the Dorchester community in South Boston,” said **Ashley Mills, CEO of The Vision Council and The Vision Council Foundation**. “At The Vision Council Foundation, we are committed to ensuring that everyone has access to essential vision care, as eye health is a vital part of overall well-being. Vision screenings are a great first step toward maintaining healthy vision, and we welcome community members to stop by on March 29 to get screened and learn more about maintaining lifelong eye health.”

“Our mission at 20/20 Onsite is to make high-quality vision care accessible for all,” said **Sonali Bloom, CEO of 20/20 Onsite**. “By bringing our mobile clinic to the Boston Public Library, we’re removing barriers to care and helping the community take an important step toward improving their overall health.”

### **Vision Screening Details:**

Saturday, March 29, 2025  
10 am – 3 pm

Boston Public Library, Grove Hall  
41 Geneva Avenue, Dorchester, MA 02121

No appointment necessary – walk-in only.

## **About The Vision Council Foundation**

*As the philanthropic foundation of The Vision Council, The Vision Council Foundation empowers people everywhere to see and look their best through public eye health education and optical industry career training support. A 501c3 charitable nonprofit organization, the Foundation is dedicated to ensuring better vision for better lives.*

## **About 20/20 Onsite**

*20/20 Onsite is a health care services company that is transforming the delivery of vision care by radically improving access for patients through state-of-the-art Mobile Vision Clinics. Since 2014, their integrated mobile service delivery platform has taken high value eye care services directly to patients at work, at school, and more recently, at convenient neighborhood locations in the Northeast. In the midst of the pandemic, 20/20 Onsite began bringing ophthalmic assessments to patients in clinical trials or post-marketing safety surveillance programs across the country, increasing access to clinical research. They are disrupting the way eye care is delivered, and are enabling and accelerating fundamental trends toward the consumerization of care and the decentralization of clinical trials.*

*20/20 Onsite serves over 450 corporate clients, educational institutions, and other organizations with comprehensive eye care for their employees, and their patient base of 85,000+ consistently reports NPS over 95.*
